

WATCH DISPLAY

A - HOUR HAND
B - MINUTE HAND
C - CROWN
D - SECONDS HAND

TIMESSETTING

This watch features hour, minutes, and seconds hand.

1. Locate the crown on your Stauer watch (above diagram part C). Please note the two crown positions (0 -1) in part C of above diagram.
2. Before the watch is worn for the first time, wind the crown, by hand, 15 to 20 cycles by rolling the crown clockwise (away from you) while in the "0" (zero) position.*
3. To set the time: Pull the crown out to position "1" (part C) which will allow you to set watch hands for proper time selection. Once time is set, push crown back into original "0" (zero) position.

* Carefully wind the crown clockwise paying close attention to the tension in the crown. Be careful not to over wind your watch as this can cause damage.

IMPORTANT

- Please remember to wear your Stauer watch each day to ensure its lifelong accuracy and dependability for your timekeeping needs. By continually wearing your Stauer watch, you will be taking full advantage of its state of the art automatic winding feature which, allows the watch to function utilizing your simple body movement. It can, however, be reactivated simply by instilling motion by being worn. When not wearing the watch, resting the watch on its side (with crown facing towards the ceiling) will help to keep more accurate time.

A Watch Winder is a great investment to ensure all of your Stauer wristwatches are keeping correct time and ready for you at any time! Take advantage of our Watch Winder offers on our website. Visit us at, www.stauer.com to learn more about the fantastic benefits of owning a Watch Winder!
